We create transformative experiences for brands, destinations, buildings and most importantly, the people who enjoy them.

PEOPLE MAKE THE PLACE
At MG2, we dive in and dig deep. We enjoy what we do and the people we do it with. We’re curious, empathetic and (mostly) ego-free. We push each other to be even better, support each other when things get stressful and go all out to help our clients achieve their goals.

Our culture is based on recognition and appreciation. So we celebrate birthdays. And anniversaries. And every other Friday, we get together for an all-office breakfast buffet.

We design over-the-top, insanely detailed gingerbread houses, dominate rec-league sports and know all the best happy hours around. Most importantly, we take time to give back to our communities, together.

LIFE IN SEATTLE
MG2’s corporate headquarters – located in a historic revitalized downtown building – is walking distance to the Seattle waterfront, Pike Place Market, Seattle Aquarium, Benaroya Hall, Seattle Art Museum, CenturyLink Field and Safeco Field. With an ever-growing number of tech companies (including homegrown Amazon and Microsoft), a killer music / craft beer / coffee scene and hundreds of gorgeous hikes less than 30 minutes away, life in Seattle is unlike anywhere else in the world.
Attractions

Seattle is a bustling urban metropolis fueled by caffeine, made famous for innovation and surrounded by natural beauty in every direction. MORE INFO >>
White settlers come to the Seattle area. They name the city Seattle after Chief Sealth, a Duwamish Tribe leader who befriended the pioneers.

MG2’s Seattle Office

MG2’s corporate headquarters is perfectly positioned in the heart of downtown Seattle – by the waterfront and within walking distance of the city’s most famous icons. In May 2015, MG2 completed a 64,000 SF renovation on three floors of the four-story 1101 Second building, designed by Pacific Northwest modernist architect Paul Thiry.

In designing the new headquarters, MG2 envisioned a space that would drive connectivity within our firm and with our clients, partners and community. Our diverse team of retail design, office design and brand strategy experts collaborated to develop an office space that applies the retail design sensibility to the workplace, from a focus on the “customer journey” to a unique street-facing exhibit space.

Our design team played off the natural state of the building with open floor plates and exposed concrete to create an expansive, modern environment set against a refined industrial backdrop. The open environment provides employees with choice and flexibility between a variety of work spaces – from individual workstations to open and enclosed meeting areas and “quiet rooms” for individual work or small group meetings. The flexibility and inspiring design of the space is a reflection of MG2’s dedication to attract and maintain the next generation of design talent.
